Obviously he did not realize it at first. And then is all came over me-the rush of old memo-

Downs dropped her hand and gazed nicest old gentlemen I ever met. There allen him during his at her a moment in sheet amazement, "Why," he stammered. "Why, I—Good heavens!" he exclaimed. "Do you "the Shenandoah mean to say that you-"

"Yes," she said. "I think I was the hough, of course, I was so young that can't really be certain. I remember ch an incident-of a Northern soldier's beauty of the scenery stopping there and the horsemen riding But I never should have guessed WAS VOIL

And you-you were the little girl I Downs. "I had no idea found there at the spring house," Downs as I live, I'm sure. And if he should exclaimed. "Why, it's simply astonished ever discover it, I should die, I know I ing!" He looked at her critically, should I could never look him in the Black hair and eyes," he muttered. "Do face again. And if he should happen to you know, I believe-there's no mistake. tell his wife, she would know at once. You're not as I thought that girl-you. I mean-would look. And yet," he gazed he was very ready to believe me old at her again, "there is something about enough. Why, I should have to be nearly you that seems femiliar, too-an expres- forty-five. And he ought to know

"Yes, isn't it!" She motioned him to those days." And he was so young then, and so many things was so young then, and so many things saved his life during the war. "It was near there happened in those war days. I used near grandfather's old place in Virginia; ne narrowest escapes often to watch the soldiers march past and—and I let him think I was the one perience. It was really the house, And when the stragglers who had done it." such a high opinion would come along I would sometimes "Oh, one of his war stories, ch? And slip off down to the spring house, where he promised to let up on us, did he

"Well, I'm glad I happened to tell it." said Downs. "And, do you know, I felt from the first that there was something he had so much real nobility, would you strangely attractive about you. I must dear? And when I think of how wick-tell Fenwick and the others."

"No, please don't mention it," she

said harriedly. "It would be most em-barrassing for me." "Of course, whatever you wish. I feel as though I owed you the public acknowledgment. I don't see why-"Call it a woman's vanity," she an-

swered, with a laugh. "Vanity?" "Why, yes. Don't you see, if I was eight years old in war times, I must be -oh, ever so old by now.'

"Eh? Oh, yes, I see. I understand. why didn't he refuse me?" ng tramp in the dust But I'm sure you don't look it. Upon came upon a spring to have discovered you again, for I have charming woman. And, incidentally, beof the road. A little often wondered whatever became of you. But at all events, I can thank you now, tine years old, I should after the years that have passed, without fear of being misunderstood. And if there was anything I could do to repay you-I don't mean that. Of course, never could repay you-but to show my appreciation-if there was anything ould do to prove that, I would do it

Would you?' said Mrs. Gordon, lowering her voice and gazing earnestly into is face. "There is something you could do-something that is of great importance to me. But I fear-I'm afraid I ooo. At the present time there are only

night not to ask you, Downs gasped. If it had come in any other way he could have met it. "Anything I can do-anything that it

in my power to do," he began, "It may seem a very little matter t you," Mrs. Gordon observed. "It is only some shares of stock in the Manhattan Consolidated Improvement Company-I think Manhattan Consolidated is the

name of it." He reflected that she probably didn't know where that stock was being quoted, and that it probably wouldn't make a bit of difference if she had known.

"My husband, you know, has not been able to get the stock, or the shares, or whatever it is. He is out of town now, but he said that you had it-in a pool humming birds. they were too tired or something-and refused to sell. at passed the pail couldn't understand it very well. But hatches its eggs not in a sitting but in And then she you know it will ruin us if you don't." a standing-up position.

Downs sighed helplessly. "So, if you could let him have itdier as I did he thought at first you were going tofellows had it would be the greatest accommodation and they did to us. And personally I should feel that I should have been whatever I had done in the past-whatever trifling service I had rendered you state to build railways, of which it now as a child-was more than repaid. My musted by her work husband, of course, would never wish of what she had me to speak as I have; and I could not which bear a trademark at all resembling sat down on the step have done it to-to any one else. But I'm a crescent. would know I had sure you understand. It doesn't seem a

Where We Excel. It is said of Loudon, in praise of its

greatness, that: In London a child is born every three nimutes and a death is recorded every ive minutes. The city contains 700 railway stations, 5,000 omnibuses, 7,000 mansoms, 14,000 cabs and 7,000 tramcars. Daily 1,000,000 persons travel on under-

ground railways.

Eleven railway bridges span the thames. Four thousand postmen deiver 10,000,000 letters weekly, walking a listance equal to twice the circumference of the globe. There are 10,000 miles of werhead telegraph wires, and the numper of telegraph mass es received in London in a year is 6,000,000,

Ninety million gallous of water are consumed daily. The railways, omniuses, cabs and steamboats convey 1,273,-00,000 passengers daily, and the underround railways 263,000,000 passengers.

The 118 square miles of London are whited by 4.974 electric are lights, 1,185 lectric incandercent lights, 56,000 in andescent gas lamps and 18,248 flat lame gas burners, Well, New York can do something in

he same lines of municipal greatness. With a smaller number of inhabitants han London it exceeds it in the volume of travel, in the amount paid for work, n the volume of work done, and in the ocrease in the number of buildings, ocspants of a building and of population

Where London consumes 90,000,000 gallons of water a day, New York con-umes 500,000,000. Where London has n area of 118 square miles, New York as 326. with its sectional shirring, show its ab-
